

# So I had to start a telco

Or .. How I finally got high speed internet access to  
my house in 2020

Jared Mauch - Washtenaw Fiber Properties LLC  
@jaredmauch

# Background

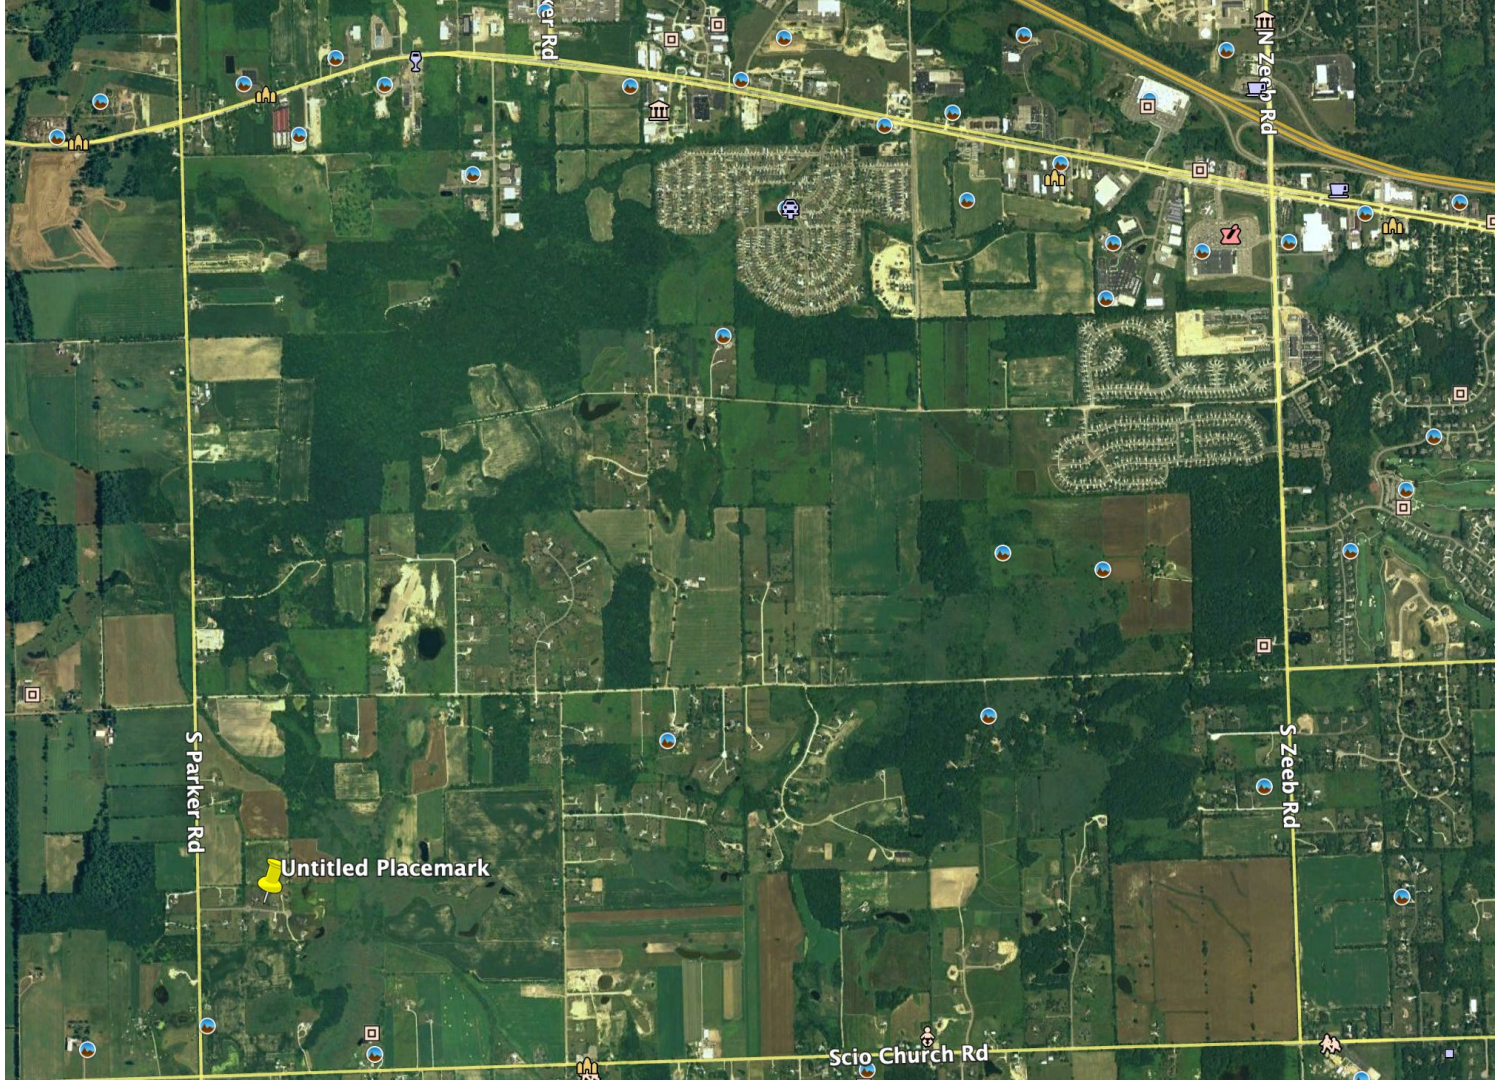

- In 2002 I moved to a new home on the outskirts of Ann Arbor, MI
- My employer at the time provided me a T1 to the local pop
- 1.5Mb/s in 2002 symmetric at home was still decent
- Development in and around Ann Arbor was putting in new subdivisions nearby
- I expected broadband would reach my new home eventually (Cable, DSL, FTTx)
- But.. nothing came
- About 2+ (3.3km) miles away from existing service area
  - 12291ft (3.7km) to my house

# Where do I live?

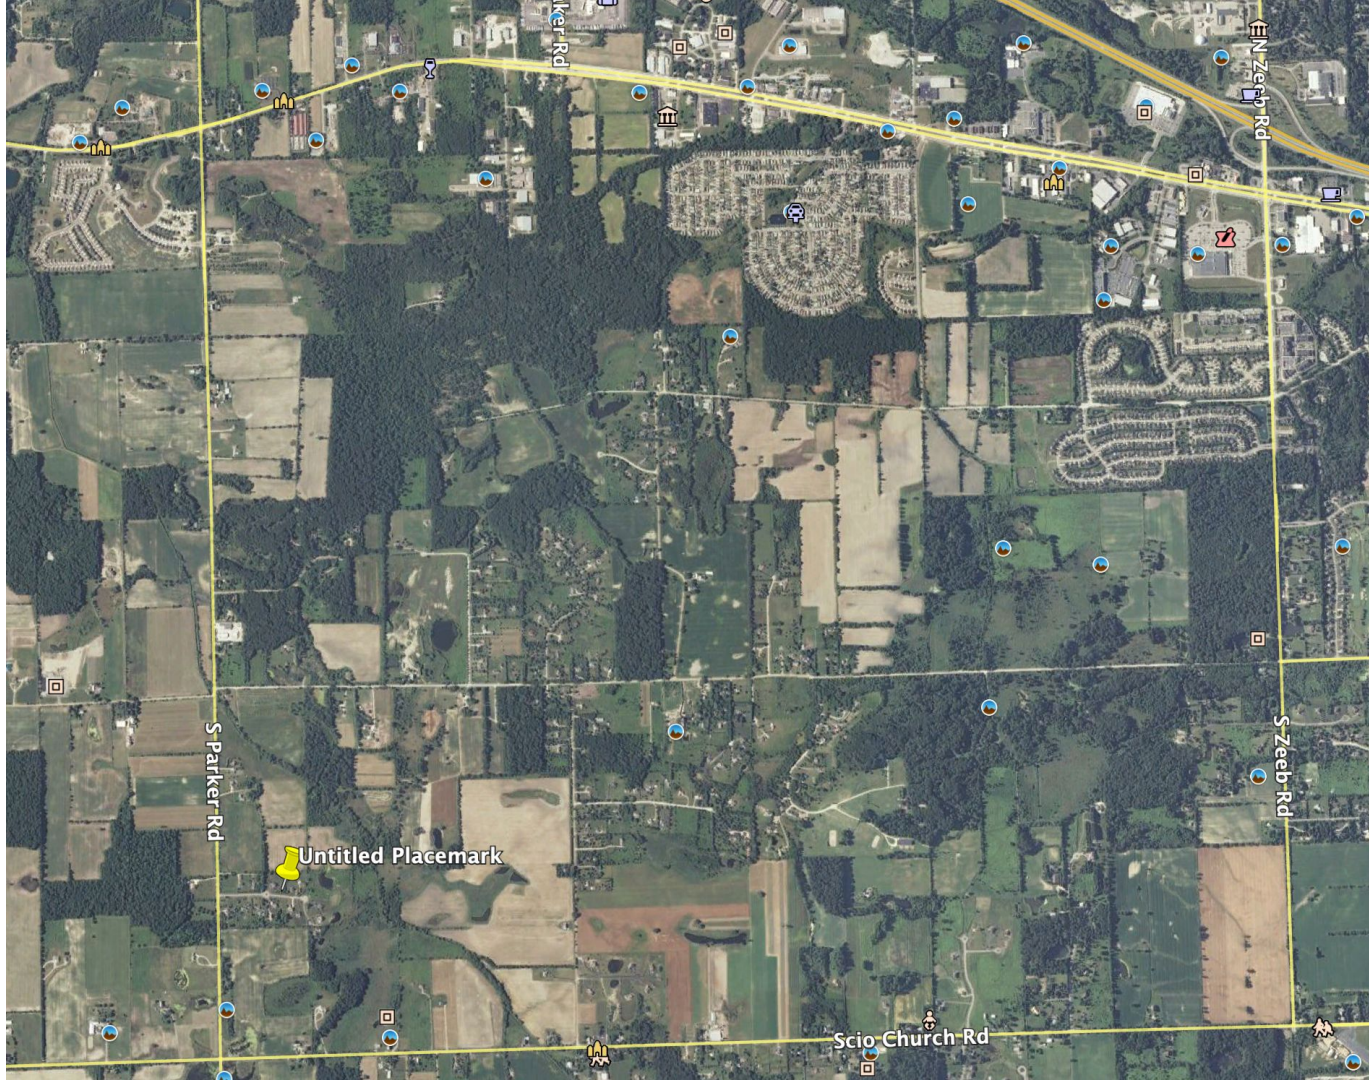

- West side of Ann Arbor, MI
- No .. Further west

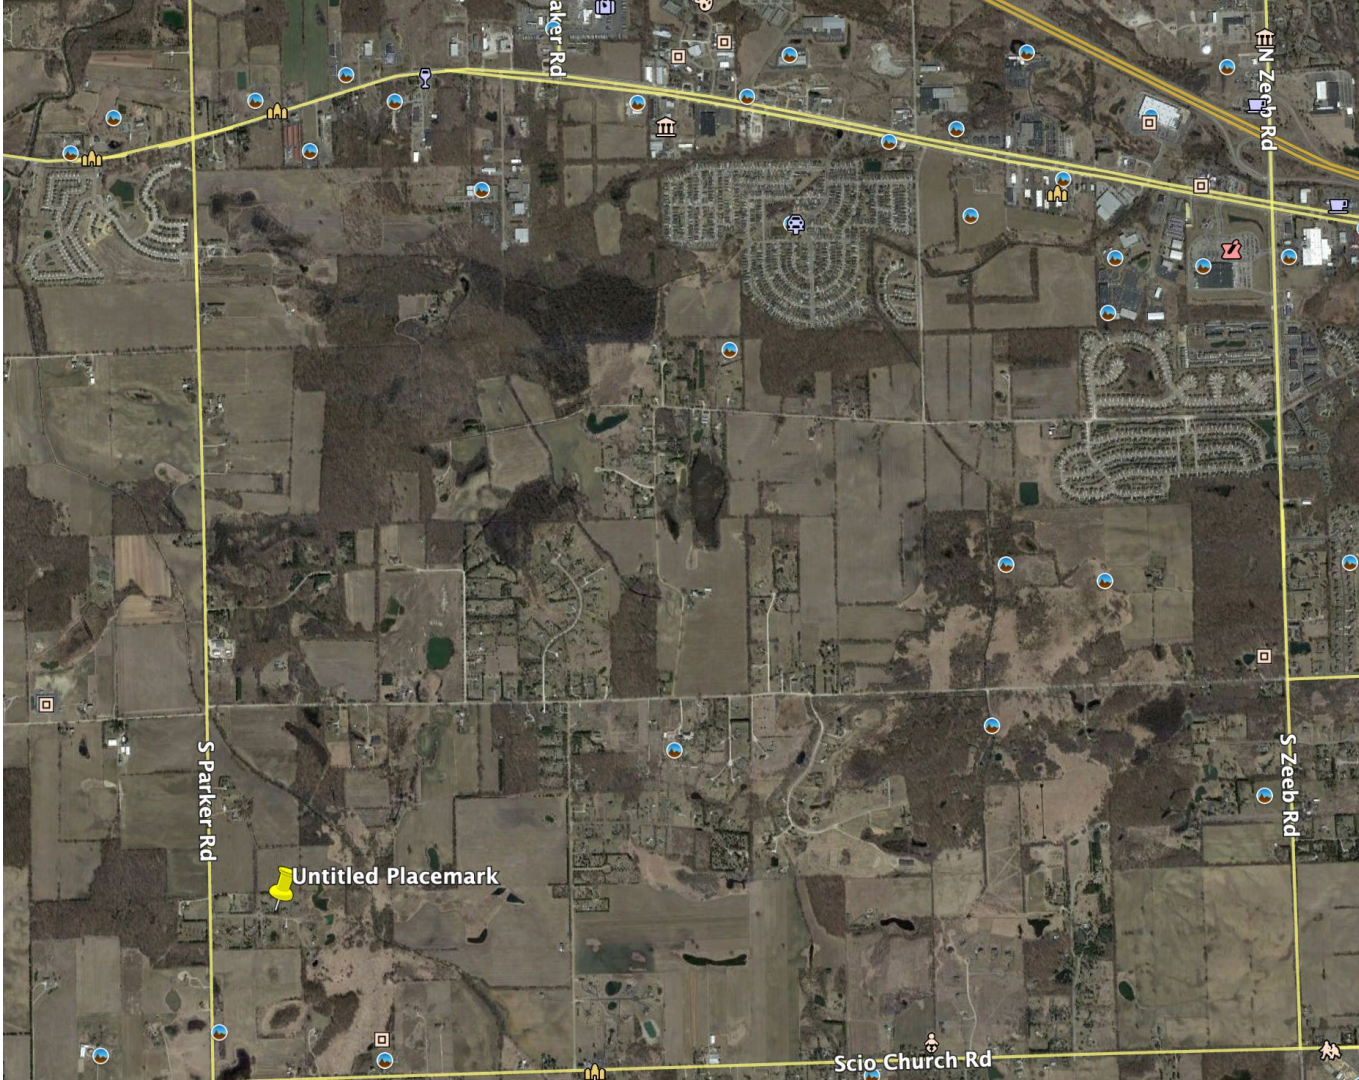

Keep going...

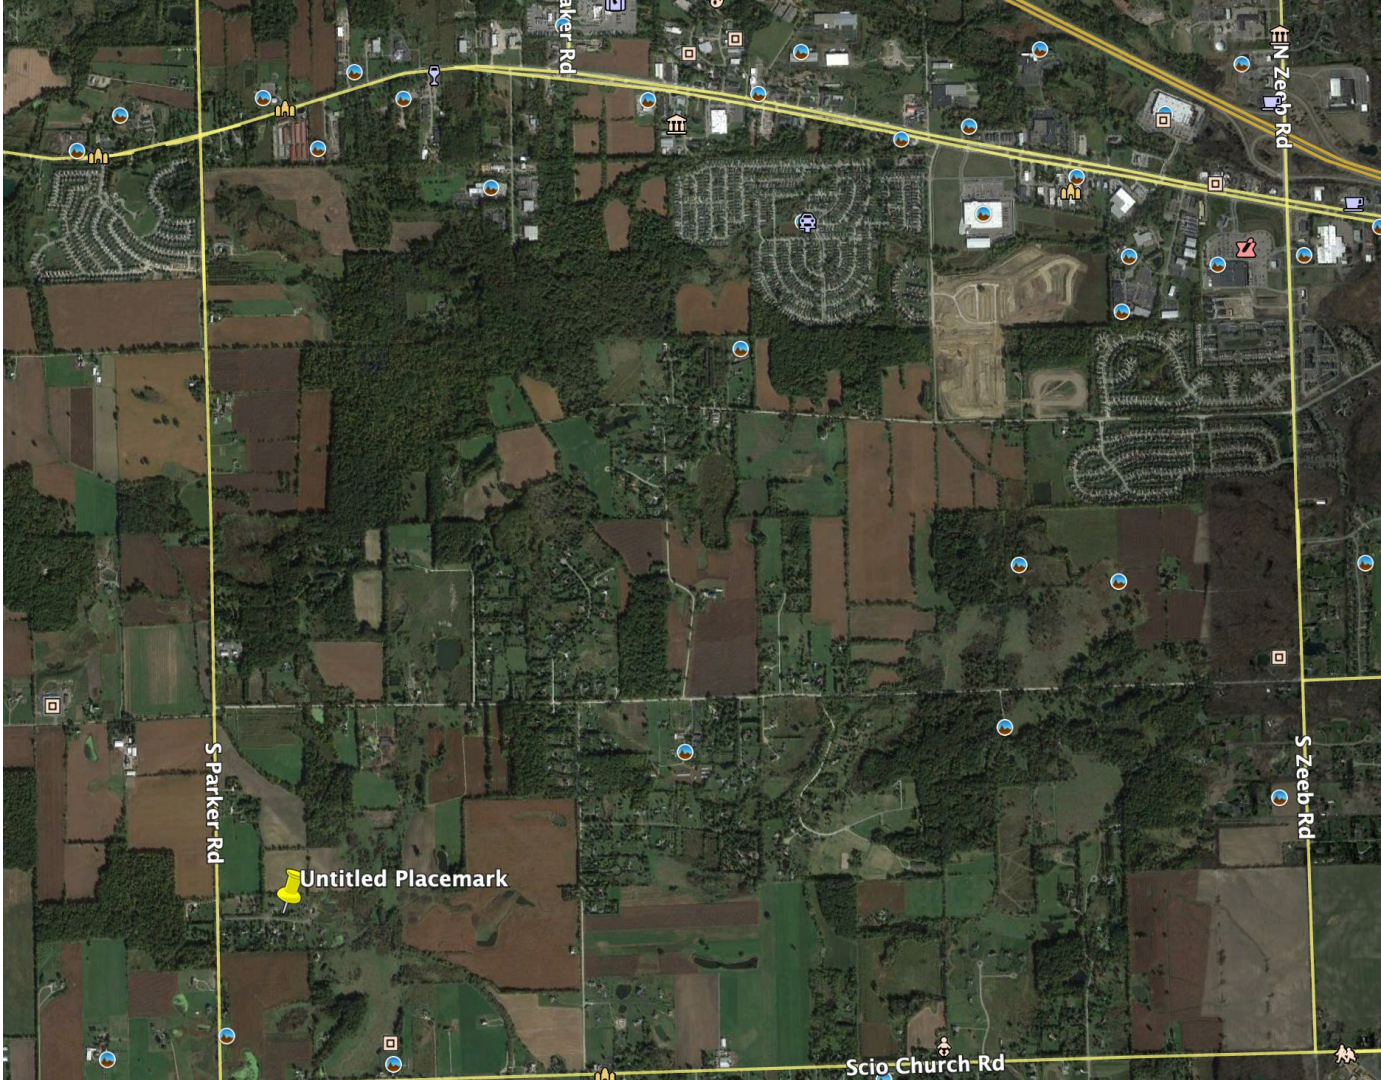

- Ok, can I describe it as farm adjacent?

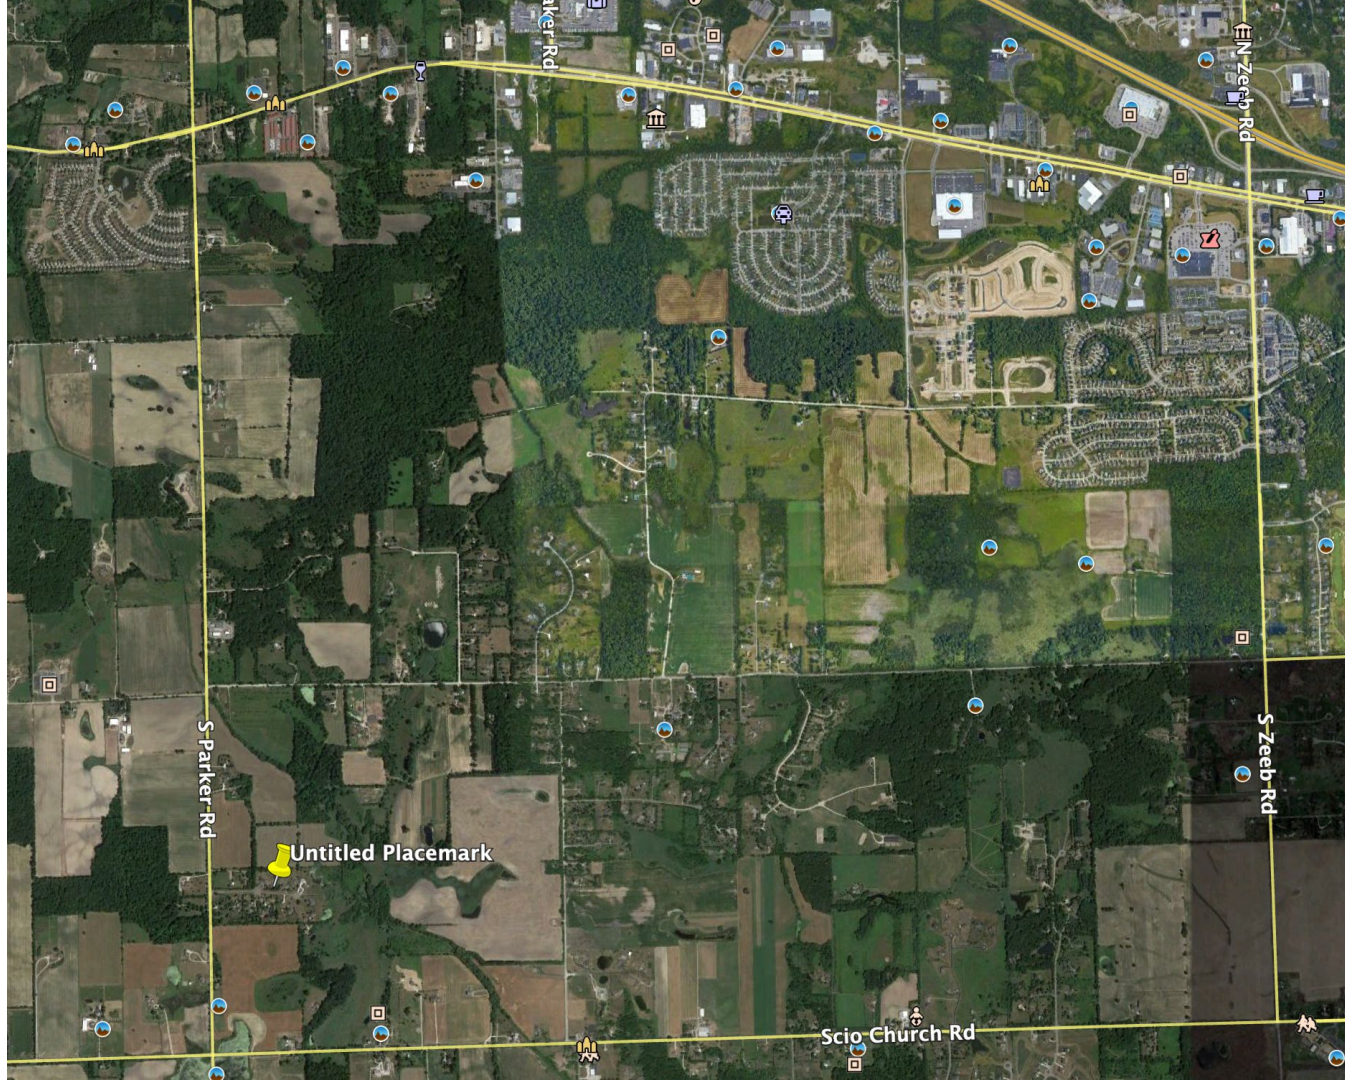

# So .. problem.. Conflict

- No high speed internet
- Move?
  - US generally seller pays commission based on sale price, significant cost to move
  - Home devalued as no high speed available
- WISP (Wireless ISP) to temporary rescue
- What's a geek to do?

I know...

- Start a telco!
- File a tariff - <https://washftth.com/tariff/>
- ...
- Profit?

# Lets back up now

- Research
- Planning
- Finances
- Pre-builds
  - 2018 - Started to connect WISP customers to fiber
- Customers
- Internet Access
- Construction
- Contractors
- Fiber

# Research

- Access, Costs
  - Tried to get existing providers to build
  - Comcast was most approachable and easy to work with - wanted \$50k
  - AT&T was unable to offer anything but DSL
- Technology
  - Active Ethernet
  - GPON (UF-OLT, some drawbacks here)
- Marketing!
  - Talked to many people
  - Mailed letters to potential subscribers
- Talked to many ISPs doing existing FTTH
- Community Groups

 Internet

1. Choose an internet plan

Great news! You can get our **fast**, reliable internet at your address. Check out your available speed below.

Internet Basic 1.5

**Speeds up to  
1.5Mbps**

~~\$49.99/mo.~~  
**\$39.99**/mo. Bundle price for 12 months

No annual contract. Price plus taxes & \$10/mo. equip fee. Incl \$10/mo saving when bundled with other qualifying svc. (min. \$19/mo) & may require combined bill. Incl unlimited internet data allowance at no add'l charge (\$30 value). [See offer details](#)

Add

# Planning

- Purchased fusion splicer in 2016
- Purchased first 2km of Fiber in 2017
- Purchased OTDR in 2018
- Design and Permitting
  - Drew up master plans
  - Filed tariff with regulators
  - Joined MissDIG (811) system
  - Permit filed for April 2019
  - Issued September 2019
- Time of year pushed schedule into 2020

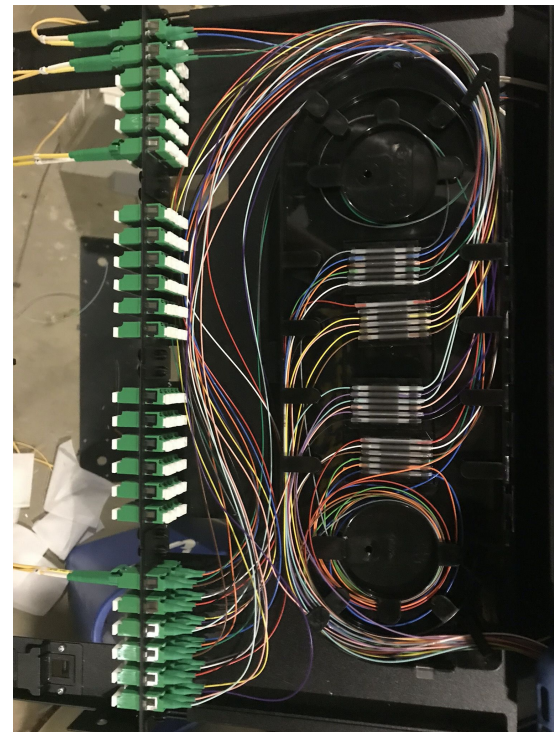

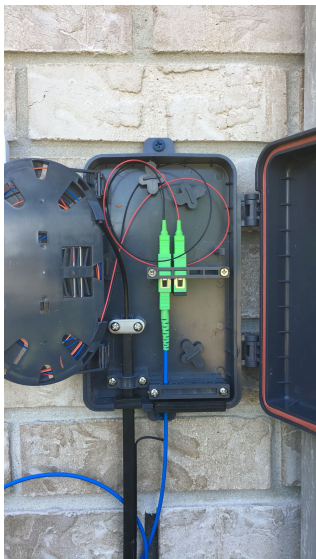

# Finances .. or .. start small

- Key was to spread out costs over a longer period of time
- Found distributors for underground supplies
- A little bit here, a little bit there goes a long way
- Planning told me it would be a \$60k project (at least)
- Had to line up money, bonus, HELOC, customer payments
- Pre-pay model copied from VBFiber
  - Can pay \$5,000 up-front and receive \$50 credit for 100 months
  - Stays with property
  - Keeps customer paying something
  - Offset startup costs (£⇄\$)

# Pre-builds

- Worked with existing WISP who had antennas on my house
- Pre-wired neighbors with fiber at my expense
- Pre-wired and pre-constructed my property
- Racks, Fiber distribution, patch panels...

# Supplies and Supply runs!

# Customer Acquisition

- Local county has tool MapWashtenaw
- Can look at property shapes
- Get owner names
- Sent them a letter
  - In the mail
    - On paper
      - Yes in 2019
        - Really
- Invited to neighborhood meeting
- Construction start letter also went out to people who did not sign up
  - More people signed up
- Around 70% of homes passed signed up

# Internet Access

- ACD.net
  - Had to enable IPv6 for me
- 123.net
  - Connection Pending
- Detroit IX
  - Connection Pending
- ARIN
  - Can apply for IPv6 space
  - Can apply for IPv4 space if you have IPv6
  - Already had an ASN

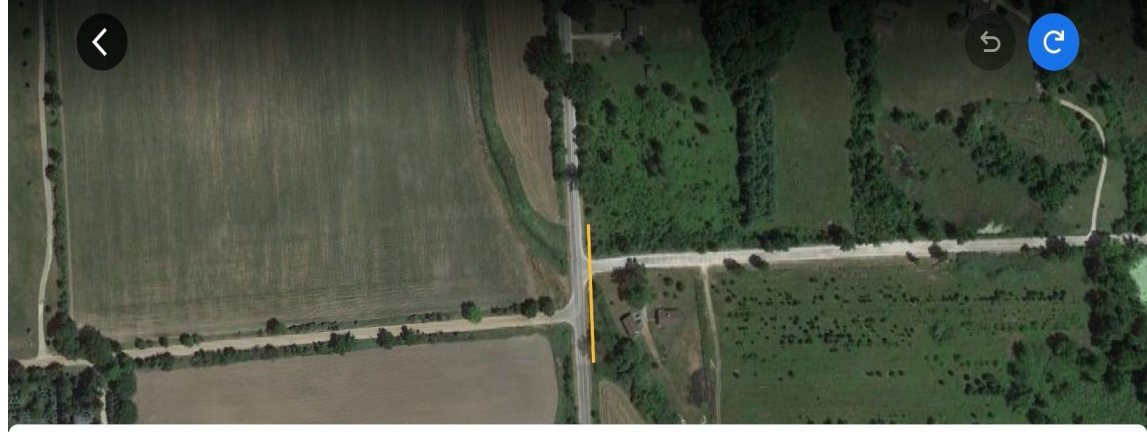

# Contractors

- Have a good working relationship with them
- Perhaps buy them food
  - Keep them happy and working
- Resolve issues along the way
- Consider policies for social media posts
- Get a good referral
- Make sure they have all the right equipment

# Expect problems

- Cursed corner!

Distance ?

315 ft

# My Equipment

- Purchased Ditch Witch JT820 Drill
  - Vintage - 1995
  - \$8,000
- Borrowed cable plow
  - Used to bury service drops
  - Owned by WISP

# Theft of equipment!

WASHTENAW COUNTY ROAD COMMISSION  
PERMIT ENGINEERING SECTION  
555 N. ZEEB ROAD  
ANN ARBOR, MI 48103

## STOP WORK ORDER

On 06/09/20 Inspector J. Posaguy of the Washtenaw  
County Road Commission does hereby give notice to the persons performing work at:  
Parker @ Liberty Lodi  
(Street Address) (Township)

You must contact the Permit Engineering Section at (734) 761-1500 before any further work is done at this location. Failure to comply with this order may result in criminal prosecution. **DO NOT REMOVE** or **COVER UP** this notice without authorization under penalty of law. Posted in accordance with MCLA §247.326, MSA 9.140 (26), Act 200 of 1969, as amended and/or MCLA §224.19b, MSA 9.119 (2).

No call for inspection prior to work

<input type="checkbox"/> No Permit	<input type="checkbox"/> Drainage Obstruction
<input type="checkbox"/> Unsafe Construction Work Zone	<input type="checkbox"/> Material Tracking
<input type="checkbox"/> Obstruction Within County Right-Of-Way	<input type="checkbox"/> Soil Erosion
<input checked="" type="checkbox"/> Other <u>No staked R/W</u>	<input type="checkbox"/> Road Damage

# Unbudgeted costs

- Survey and staking of right of way
  - \$5,000
- Marking wire for conduit to end stop-work order
  - \$300
- Employee badges
  - Helpful during COVID-19
- Water
  - \$1,500 (may be revised) for directional drill

# Other problems

- Unmarked utilities?
- Self-hit on installation!

# Fiber Installation

# Build your own tools!

- Built a small fiber blower
- Worked decent
- 2,700 (822m) feet without issue

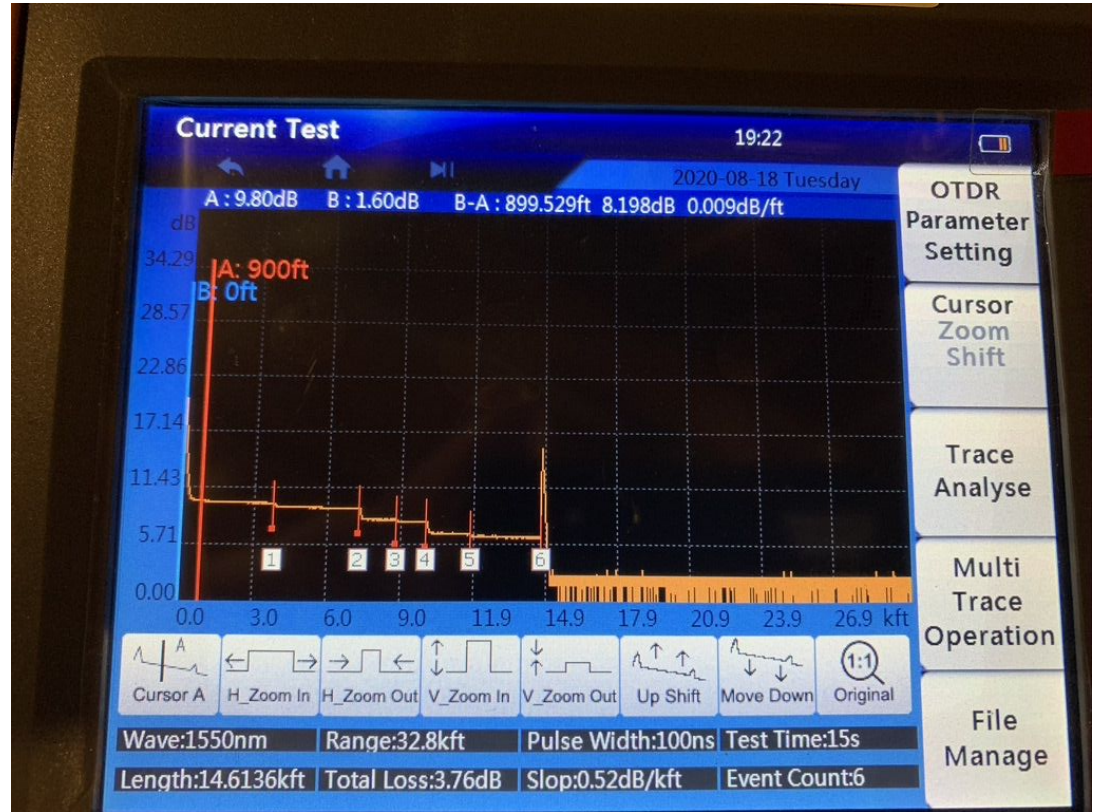

# Splicing time!

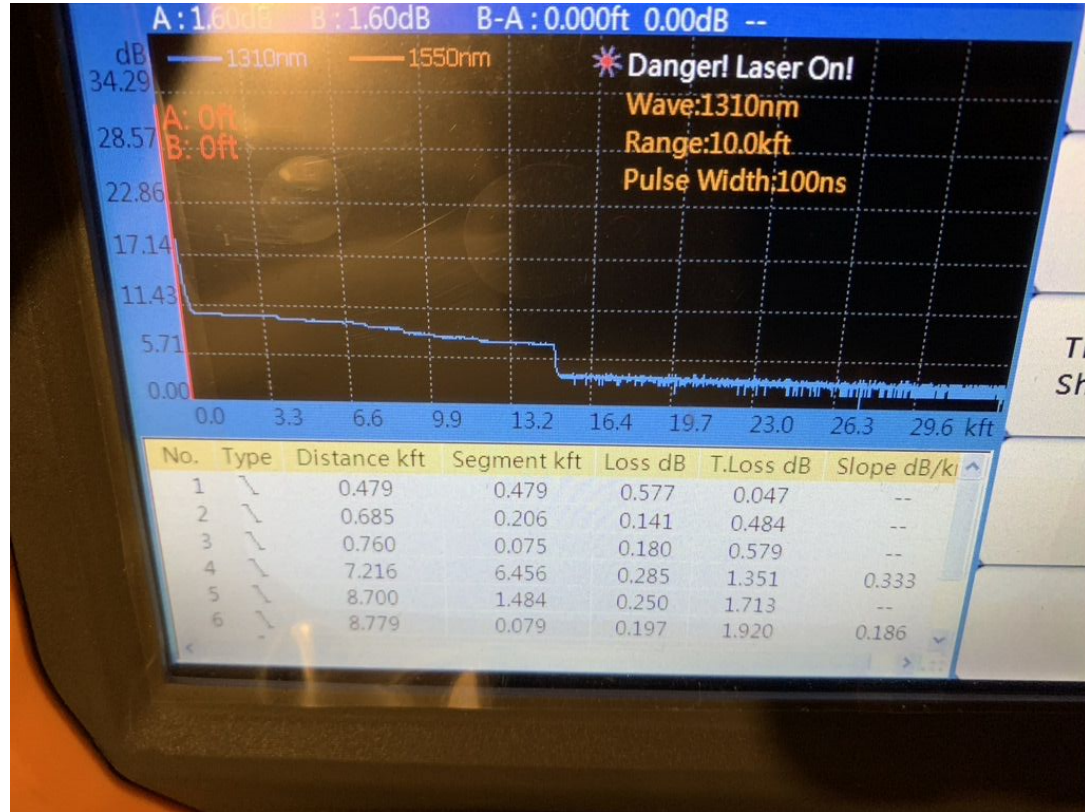

# OTDR time!

- Ouch!

# Some fixes ...

- Better

# Scheduled install

- August 27<sup>th</sup>
- I know what I'm doing, so turn-up should be easy right? RIGHT?
- HAHAAHAHHAHAHAHAHAHAHAHAHAHHAAAAHAH
- Sorted through a few issues
- Then..
-

# Finally link-up!

# Latency reduction

Your Internet speed is

**730** Mbps

# Unsolicited contact!

- IPv4 Depot
  - We noticed you stopped announcing an ARIN /24
- Cogent
  - Want transit?
    - Called me during a precious mid-day nap
  - We are ranked lower on downdetector than (insert list of competitors)
- HE
  - Want transit?

# Costs?

- 2020 had the majority of them
- Major costs breakdown:
  - \$126,710
  - \$94,866 - Directional boring/conduit installation
  - \$31,844 - Misc materials, rentals, equipment
    - \$5,000 - Surveying
    - \$856 - 185 CFM Air Compressor rental

Maybe still cheaper than moving? And I now have fiber!

# Thank You!

- Without many people it would not be possible
- Support of many people who have been there and done that
- Ryan Peel @ VBFiber
- Chris Fabien @Lakenet
- Antawn Parks @ Millenium
- Roy Grove @ EZwisp
- My neighbors on Reese Lane, Pinecross Lane, Liberty and Parker Road
- Great Lakes Directional Boring
- Everyone who put up with me and encouraged me along the way
- ACD.Net & 123.net
- My family
- Many friends who helped with physical labor or other support
